BEFORE THE RIDE

Snowmobiles. Rules and safety

Drivers must be 18 or older. Children aged 5 and up may ride as passengers only.

Fasten your helmet before setting off
Drivers and passengers must fasten their helmets. Wear goggles or lower your visor, and bring warm gloves and footwear.

01 Before you set off

- For a guided ride, attend the briefing. Ask how to start moving, brake and signal a stop.
- Drivers and passengers must fasten their helmets. Wear goggles or lower your visor, and bring warm gloves and footwear.
- On your own snowmobile, ride only when the trail is open. Check the throttle, brake and lights before setting off.
- Anyone under the influence of alcohol or drugs cannot join the ride.

02 Riding as a passenger

- Carry one passenger on a two-seater snowmobile. Sit in the passenger seat, hold the grab handles and keep both feet on the footrests. Children who cannot reach the handles or footrests cannot ride.
- Get on or off only after the snowmobile has stopped completely and the driver says it is safe.

TRAIL SAFETY

Riding a snowmobile

03 On the trail

- On a group ride, follow the instructor in single file. Do not overtake. Leave enough room to stop safely.
- Keep both hands on the handlebars and your feet on the footrests. Slow down before turns and descents, and when visibility is poor.
- Stay on the open trail. Do not take shortcuts across bodies of water or venture onto ice on your own.
- Before turning around or reversing, check that there are no people or obstacles beside or behind you.

04 If you need to stop

- Has your visor fogged up, are your hands too cold, or do you feel unwell? Use the agreed signal and stop smoothly in a visible spot clear of traffic.
- If the snowmobile gets stuck or breaks down, switch off the engine. Stay clear of the track while the engine is running.
- If the snowmobile breaks down, someone falls or someone is injured, tell the instructor or a park staff member.

> **The instructor may stop the ride if a participant breaks the rules.**
